

Custom Water Utility Training Platform

Our online education platform comes preloaded with water industry training and can be customized to create your site specific training program.

"Well organized classes and lectures."

- W. Anderseck

YOUR OWN WATER ACADEMY

Take your training program to the next level! American Water College can help you create an online training academy that is customized for your organization.

VIDEO LECTURES

Each lesson has a video lecture. The instructor teaches through the material while you sit back and watch, listen, and learn.

QUIZZES

Each lesson includes quizzes, allowing the student to demonstrate the training was effective and the objectives have been met.

LESSON HANDOUTS

Printable PDF handouts for each lesson are included so you can follow along with the video lectures and review the material offline.

IACET ACCREDITED CEUs

All of our courses are IACET accredited and can be used towards your CEU and Contact Hour requirements for license renewal in most states.

INSTRUCTOR SUPPORT

Our student support team is ready to help you with everything from selecting the right course to explaining complex math problems.

Training Libraries Available

Water Treatment	Safety
Distribution	Management
Waste Collections	Professional Development
Wastewater Treatment	Water Treatment Technology
Continuing Education	Specialized Training

ADD YOUR OWN TRAINING CONTENT

Not only does our secure online learning platform come fully loaded with up to 10 training libraries, but you can easily add your own SCORM compliant content or create your own lessons within the system.

FULLY MANAGED

Your account includes updates, monitoring and backups. Rest assured your learning system is in good hands and you'll get the support you need.

Each Lesson Includes:

- Video
- Lesson handout
- Quiz

Exam Preparation Training

Our exam preparation training is designed to equip water industry professionals to pass their certification exams with confidence.

"Great course with lots of material, definitely worth the money. This course cuts it down to what is going to get you to pass."
- Derek B, Milpitas, CA

IACET ACCREDITED CEUs

Each lesson is IACET accredited and can be used towards your CEU and Contact Hour requirements for license renewal in most states. Upon successful completion, you will receive a certificate for the CEUs and contact hours earned.

CONFIDENCE YOU'LL PASS

Every American Water College certification exam prep course has been designed, tested and proven to help you achieve your career goals by equipping you to pass with confidence.

INSTRUCTOR SUPPORT

Our student support team is ready help you with everything from selecting the right course to explaining complex math problems.

WORK AT YOUR OWN PACE

Our online courses allow you to work through the material at your own pace and continue reviewing until you take your exam. Your course is available 24 hours a day, 7 days a week during your enrollment period.

VIDEO LESSONS

Each lesson has a video lecture. The instructor teaches through the material while you sit back and watch, listen, and learn.

LESSON HANDOUTS

Printable PDF handouts for each lesson are included so you can follow along with the video lectures and review the material offline.

QUIZZES AND PRACTICE TESTS

Each lesson includes a quiz, allowing you to diagnose any areas you need to review. Full practice tests and additional certification style math problems are available to get you ready for the exam. Quizzes and practice tests are instantly graded, providing your score and detailed feedback with answer explanations.

FLASHCARDS

Use the online flashcards to review highly tested treatment and system facts, and memorize math equivalents and formulas.

AUDIO DOWNLOADS

Make the best use of your study time by downloading the audio lectures to your MP3 player and listening to them when you aren't at your computer.

Courses Available

Water Treatment Grade 1	Wastewater Treatment Grade 1	Collection System Grade 1	Distribution System Grade 1
Water Treatment Grade 2	Wastewater Treatment Grade 2	Collection System Grade 2	Distribution System Grade 2
Water Treatment Grade 3	Wastewater Treatment Grade 3	Collection System Grade 3	Distribution System Grade 3
Water Treatment Grade 4	Wastewater Treatment Grade 4	Collection System Grade 4	Distribution System Grade 4

Each Lesson Includes:

- Video
- Lesson handout
- Quiz

Water Treatment Technology

Our certificate program is designed to give a comprehensive education in water treatment, water quality and water transmission and distribution.

“Awesome class! Thank you! For me, it was a very challenging course. I learned so much.”

- L. Barrett

ADVANCE YOUR CAREER

Advance your career by earning your certificate in Water Treatment Technology. This one year online certificate program will prepare you for a career as a water industry professional. It will give you the knowledge required to pass state certification exams, and more importantly to provide the public with a reliable and safe water supply.

GET CERTIFIED AT A HIGHER LEVEL

Our in depth program will distinguish you from other job applicants by showing your commitment to self development and education in the area of water treatment, water quality and water transmission.

VIDEO LECTURES

Each lesson has a video lecture. The instructor teaches through the material while you sit back and watch, listen, and learn.

INDUSTRY STANDARD TEXTBOOKS

All lessons are based on the Water System Operator textbook series published by the American Water Works Association (AWWA).

COMPREHENSIVE PROGRAM

All aspects of water treatment, water quality and water transmission and distribution are covered in this comprehensive certificate program.

QUIZZES

Each lesson includes quizzes, allowing the student to demonstrate the training was effective and the objectives have been met.

IACET ACCREDITED CEUs

Each course is IACET accredited and a certificate will be issued upon successful completion of each individual course.

Sample of Lesson Titles Available

Water Sources	Water Quality
Introduction to Water Treatment	Water Treatment Math
Advanced Water Treatment	Applied Hydraulics
Intro to Water Transmission and Distribution	Applied Chemistry
Advanced Water Transmission and Distribution	Electricity for the Water Industry

Each Lesson Includes:

- Video
- Lesson handout
- Quiz
