

Water Industry Management Training

Our management training focuses on equipping you with the knowledge and skills needed for managing water sector utilities.

“The course was very easy to follow along with and all information was explained very well.”
- S. Beard

CONFIDENCE TO LEAD

Our leadership and management training will prepare utility managers and supervisors to lead and manage your organization with skill and confidence.

INDUSTRY SPECIFIC

American Water College management training is geared toward the water and wastewater field and is based on the knowledge gleaned from professionals who have worked in the industry. Our courses address the real issues utility managers and supervisors face on a regular basis.

VIDEO LESSONS

Each lesson contains a professionally produced presentation designed to cover the key elements of each topic. Your staff will enjoy the convenience and simplicity of watching and listening to these informative lessons.

PROJECTS

Each lesson includes a project designed to help you apply what you are learning to your specific situation and demonstrate the training was effective and the objectives have been met.
